Volley Master

- **Vôlei Master (Master Volleyball) is an idea that was adopted by CBV (Brazilian National Federation) in the last years.**
- **Master volleyball was an informal sport in many states, used as a leisure activity. With the interest of former volleyball players to keep practicing, meeting the friends and to have a social event during the week, local competition started in different places.**
- **CBV decided to use Saquarema Volleyball Developing Center (CDV-S), in the periods the national teams were not practicing, or during Brazilian National League (Superliga).**
