Instant Personalization

We've partnered with a few websites to provide you with great, personalized experiences the moment you arrive, such as immediately playing the music you like or displaying friends' reviews. To tailor your experience, these partners only access public information (like your name and profile picture) and information available to everyone.

When you first arrive at the following sites, you'll see a notification message and an option to turn off the personalized experience:

- [Bing](#) - Social Search
- [Pandora](#) - Personalized Music
- [TripAdvisor](#) - Social Travel
- [Yelp](#) - Friends' Local Reviews
- [Rotten Tomatoes](#) - Friends' Movie Reviews
- [Clicker](#) - Personalized TV Recommendations
- [Scribd](#) - Social Reading
- [Docs](#) - Document Collaboration

To turn off instant personalization on all partner sites, uncheck the box below.

Enable instant personalization on partner websites.

Public search

**CLEAR
THIS**

Public search controls whether things you've specifically chosen to share with everyone show up in searches on and off Facebook. It also controls whether people who enter your name in a search engine will see a preview of your Facebook profile. [See preview](#)

To use this feature, first go to [Basic Directory Information](#) and set "Search for me on Facebook" to "Everyone."

Enable public search
