

“The Impact of Sport on My Life.”

...a digital storytelling project

This is an on going project of collecting digital stories of how sport has impacted your life. The collected videos are posted on the digital wall of YouTube.com.

The premise is simple...tell your story of how sport has impacted your life in a 3-5 minute video clip.

All I need is:

1. Your name
2. Where you are from
3. What you are currently doing
4. How sport has impacted your life

You will be notified via email when your video clip is online.

If you are unable to attend this session, you may record your clip on your own and email it to: summit5@aol.com. It will be edited to the format (title and credit) and posted online.
