

on (Park & Kim, 2011) originally developed by Eccles, A
 (1984) for high school students in mathematics clas
 naire includes 14 items. The items are measured on a
 ype scale anchored at the ends.

Analysis : All the data were analyzed with SPSS version
 e sex and class-type differences in students' perceptions.
 female, class type = same-sex/coeducational class) MAN
 a-squared effects sized were also computed.

Mean differences in students' expectancy beliefs and task value b

Variable	Same-sex Class <i>M</i> (<i>SD</i>)	Coed Class <i>M</i> (<i>SD</i>)
ue	4.15 (.80)	4.11 (.88)
	3.63 (.81)	3.51 (.74)
