

FITNESSGRAM 10 Goes Mobile!

**FG Student and Teacher Apps have launched and are ready for download.
Details and differences shown below:**

FG Teacher App

- Easily record assessment results
- Add entries to the FG data from any location
- Allows two different modes of data entry:
 - Enter single test item data for an entire class
 - Enter all test item data for a single student
- Work with multiple classes and assessments and directly view and edit the data
- Compatible with iPhone, iPad, and Android devices, this app is sold for \$4.99
- Users must have FG 9.1.3 or higher

FG Student App

- Assess understanding of health-related fitness components using six leveled tests
- Gauge physical activity level before/during/after school and sedentary time through a 15-question profile
- Play games that focus on lifelong activities
- See personalized reports
- Compatible with iPhone, iPad, and Android devices, this app may be downloaded for FREE
- Users must have FG 10 or higher
- NUTRIGRAM feature coming soon!
