**ScoopIt:** iPad and PE; Adapted PE; Physical Education Today

**Pinterest:** Technology; Physical Education

**With** the introduction of new technology continuously occurring throughout the twentieth century it has brought great promise for social and educational benefits, but the practicality of implementing it into the classroom sometimes is questionable. Within this session attendees will gain insight of how to add simple technologies, but gain the interest of the students.

Attendees will receive an iBook author link to a book titled: *iPhysical Education: Teaching the Net Generation* written by Dr. Adkins detailing all information, power points, and examples shown within the presentation.

The topics covered will include:

- *Understanding Technology* (an overview of teaching the 21<sup>st</sup> Century PE student)
- *Social Networking*- Benefits from the Teacher and Student side
- *Bloom's Taxonomy*-Technology (iPad Apps, Web 2.0, Google Apps)
- *iPad in Physical Education* (1 to 1 classrooms, Apps, Prezi, cloud)
- *Audio and Video Casting in PE* (podcasting/vodcasting instruction)
- *Quick Response Codes* (QR skill posters/ Activities and references for students)
- *Going Google* (docs, google +, website)
- *Flipping the Classroom* (Elementary to Higher Education- practical application)
- *iBook Author* (book development to enhance learning, review tool for students)
- *Newest Technology Devices* (Swivl, Class Parrot, Project Glass, Ubersense)
