## How people bring your info to apps they use

People on Facebook who can see your info can bring it with them when they use apps. This makes their experience better and more social. Use the settings below to control the categories of information that people can bring with them when they use apps, games and websites.

- |  |   |
|--|---|
| <input type="checkbox"/> Bio                           | <input type="checkbox"/> My videos                            |
| <input type="checkbox"/> Birthday                      | <input type="checkbox"/> My links                             |
| <input type="checkbox"/> Family and relationships      | <input type="checkbox"/> My notes                             |
| <input type="checkbox"/> Interested in                 | <input type="checkbox"/> Hometown                             |
| <input type="checkbox"/> Religious and political views | <input type="checkbox"/> Current city                         |
| <input type="checkbox"/> My website                    | <input type="checkbox"/> Education and work                   |
| <input type="checkbox"/> If I'm online                 | <input type="checkbox"/> Activities, interests, things I like |
| <input type="checkbox"/> My status updates             | <input type="checkbox"/> My app activity                      |
| <input type="checkbox"/> My photos                     |   |

### Instant Personalization

**FIRST  
CLEAR  
THIS**

We've partnered with a few websites to provide you with great, personalized experiences the moment you arrive, such as immediately playing the music you like or displaying friends' reviews. To tailor your experience, these partners only access public information (like your name and profile picture) and other information you've made public.

When you first arrive at the following sites, you'll see a notification message and an option to turn off the personalized experience:

- [Bing](#) - Social Search
- [Pandora](#) - Personalized Music
- [TripAdvisor](#) - Social Travel
- [Yelp](#) - Friends' Local Reviews
- [Rotten Tomatoes](#) - Friends' Movie Reviews
- [Clicker](#) - Personalized TV Recommendations
- [Scribd](#) - Social Reading
- [Docs](#) - Document Collaboration

To turn off instant personalization on all partner sites, uncheck the box below.

**Enable instant personalization on partner websites.**

On Facebook, your name, profile picture, gender, networks, username and user id (account number) are always publicly available, including to apps ([Learn Why](#)). Also, by default, apps have access to your friends list and any information you choose to make public.

Edit your settings to control what's shared with apps, games, and websites by you and others you share with:

#### Public search

**FIRST  
CLEAR  
THIS**

Public search controls whether people who enter your name in a search engine will see a preview of your Facebook timeline. Because some search engines cache information, some of your timeline information may be available for a period of time after you turn public search off. [See preview](#)

To use this feature, first go to [How You Connect](#) and set Who can look up your profile by name or contact info? to "Everyone."

**Enable public search**
