

Health Fair

Betty Jane CLC 4-16-08

I thought each presentation was beneficial to all 4th + 5th grade students.

Each topic provided useful information and suggestions for a healthier life.

The students loved the hands-on activities as well as the "souvenirs" given to all students (and teachers, too 😊).

Thank you for an enjoyable learning experience.

Thank You! Dear friend

Thank you for the health fair on Wednesday at Betty Jane CLC. one of my favorite parts of the health fair was the tobacco part it really taught me a lesson I will never do drugs or smoke cigarets. I also asked my mom why she smoked just like you said and she said she did not know and she is going to stop and that is my dream for her to stop smoking so thank you very much. I really am very happy!

Your friend,

Maddy Jagers

a student at
Betty Jane CLC.!

Dear Friends,
Thanks you for
coming to our school and
doing the Health Fair. That was
very interesting. I will not do
drugs. You are friendly and kind
people. I learned alot.

was peer presurre, Tornado disaster
teeth, hand soap, and I loved
the weight part. You could of said if
you do not want to you do not
have too. I liked the tornado disaster
because it was like arts and crafts
I also liked the hand soap thing
because it shows us iderms.

sincerely,
Haley

Dear Friends,

Thank you for the Health Fair. I was extremely nice of you! I had a great time! I liked making Chex-mix and learning how to feel my heart beat! I will read the book you gave me and remember all the tips you gave to me. I had a great experience and a great time!
THANK YOU! ↓

I liker about it? Well I liked
the one about grams and the
one about exercise because

Dear Friends

Thank you for the Health Fair. It was inspiring it was fun especially the one about the heart rate, it was fun. First we were calm and we ran and hoped in place, then our heart rate was high. This was fun I loved to hear about the gears because it told me about things I did not know. It was so cool to have a Health Fair at Betty Jane Community Learning Center because it's a new school.

Sincerely,
Austin

Schroon

Dear Friends,

Thank you for the Health Fair.
It fantastic. Two thing I loved
were the germ detector light and
that soap that brings germs. The
next thing I liked is when you make
your tornado. The third thing I
liked is the teeth one cause I
went to the deintist last month.
Thank you.

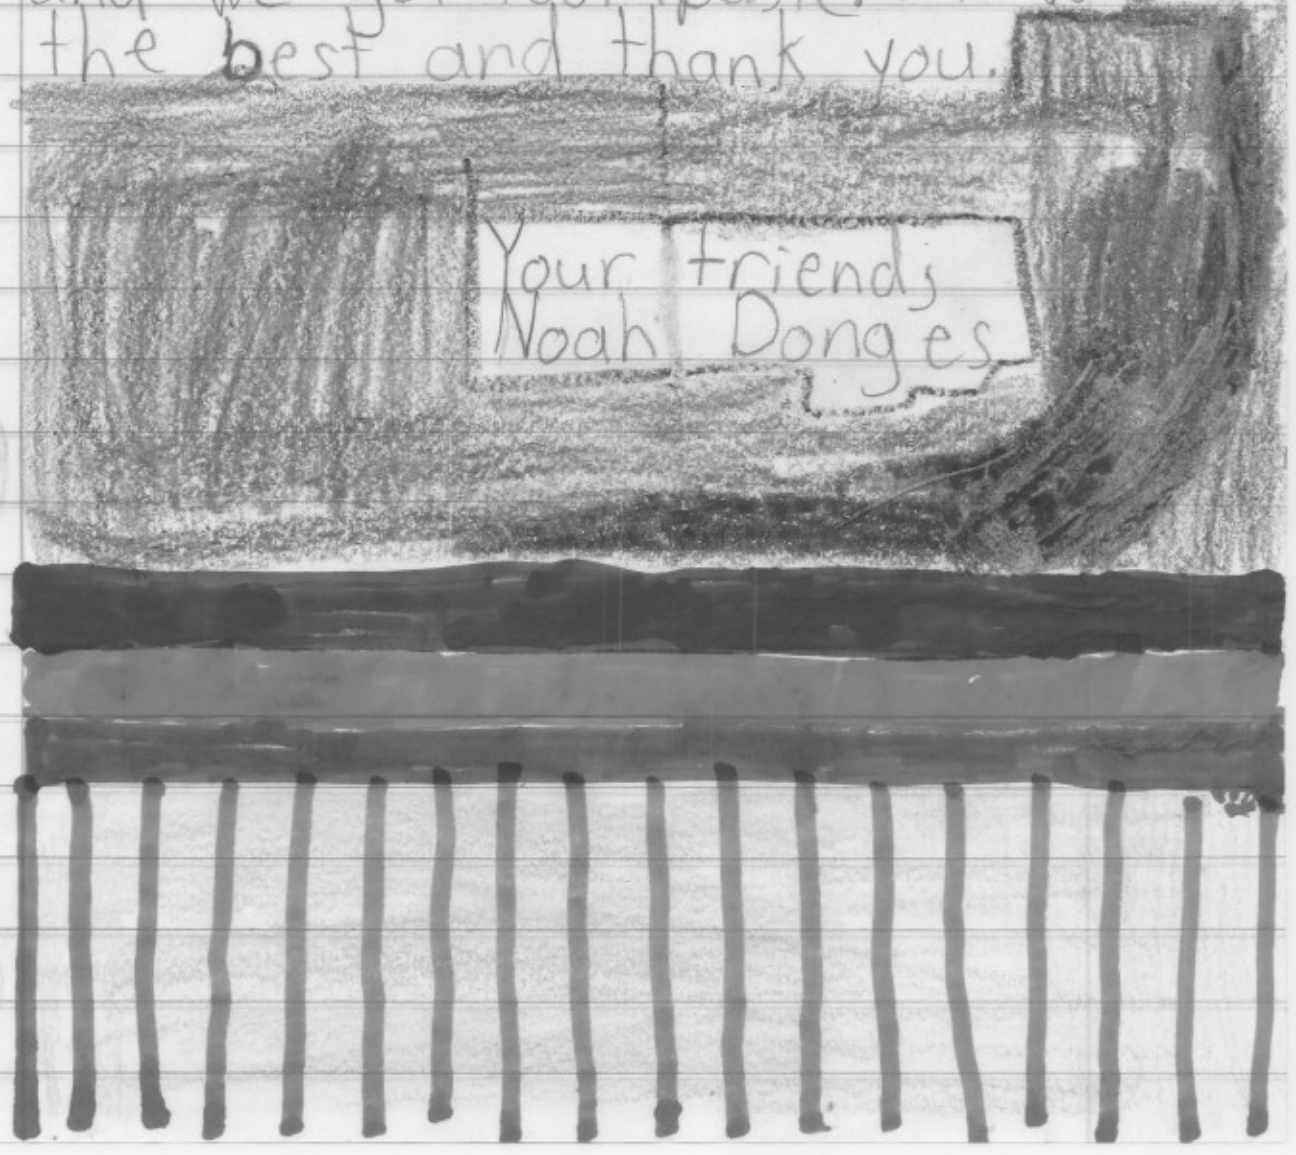

Love,
Evan

Dear Friends,
Thank you for the Health Fair. It was so fun and neat. One of the things I liked was the disaster part. We got to make our own tornado and color it. Another part I liked was the teeth part because we got a free toothbrush and we got toothpaste. It was the best and thank you.

April 17, 2008.

Dear Friends,

Thank you for the Health Fair. It was awesome.

Some of the things I thought were the most fun were when I got to feel my heart rate and another thing was how to wash my hands properly to get all the germs. I really appreciate what you have helped to put together.

Sincerely,
Victoria P.

Dear Friends,

Thank you for the Health fair. I ^{have} never been to a Health fair. It was cool. What I like ^{was} the best. Always the Physical Activity and germs. I Physical Activity because I liked the Sit-and-reach. I also liked the germs because we got to look at our germs on our hands. It was all cool and thanks.

Your friend,

Troyana W.

... - Accessibility, ...
that the germ part was
cool! But the one that
taught you about disasters
was incredible!! I liked the
2 mg of water on top
of each other. Yeah that
was awsomey cool.

Fordly,
Joey L.
