

Munzee...Grow the Map!

David Keniston Erika Smith Mary Trettevik
McKnight Middle School--Renton School District

Munzee is a scavenger hunt game using geocaching skills and your smart phone. Hunting for hidden QR barcodes using longitude and latitude will gain you points with each capture. The Munzee app gives you a map, location and clues to each nearby Munzee. Learn the rules of the game and give it a try.

The Munzee course will be outside, please dress for the weather. With the forecast, layering with added rain protection is suggested.

Save time, create an account at www.Munzee.com and download the Munzee app for your phone. (The Username you select will be publically viewed when you make captures or deploy.)
