One of the more interesting (or disgusting) Seattle oddities can be found here.
Where are you?

Answer:
 3 4

Yes, there is a nanocache hidden here as well. See if you can find it. Be discreet when retrieving the cache. There are often many muggles around and it is unusual to see people remove things from the wall. Take photos of the cache if you find it. But please DON'T publicly post pictures of the cache container.
